## Education

### Certificate IV in Business

TAFE

Hobart, 2015

### Certificate III & IV in Graphics Design

TAFE

Hobart, 2016

### Certificate IV in Programming

Holmesglen

Melbourne, 2018

### Diploma in Software Development

Holmesglen

Melbourne, 2019

### Certificate IV in Training & Assessment

Melbourne Polytechnic

Melbourne, 2020

### Udemy | 2022

React bootcamp

Hooks, Redux

### Rmit | March 2023 - July 2023

Front-End Development Bootcamp

### Udemy | 2023 - 2024

Next JS: The Complete Developer's Guide

## Experience

### TAFE Teacher | Holmesglen

July 2024 – Present (One day per week)

### Front End Developer | AITSL

August 2024 – Present

### Web Support Officer | AITSL

January 2022 – August 2024

### Team Leader | Myer

October 2019 – Nov 2021

## Referees

### Ben Hooper | AITSL

Designer | 0450191558

### Jamie Weston | Holmesglen

Manager | 03 9209 5210

### Alastair Robertson | AITSL

# Tamer Ahmed

Dedicated and passionate Web Support Officer with over two years of experience in web development and support. Seeking a Frontend Developer role to leverage my expertise in HTML, CSS, JavaScript, and ReactJS to build intuitive and responsive web applications that solve real-world problems for customers.

## Experience With

HTML	CSS	JavaScript
React.Js	Redux	Next.Js
Typescript	GitHub	Google Analytics
Figma	Node.Js	MySQL
MongoDB	Sitefinity	Tailwind CSS

## Professional Experience

TAFE Teacher - Holmesglen: July 2024 – Present (One day per week)

As a JavaScript Teacher at Holmesglen, I deliver high-quality education and training in JavaScript to IT students. I design lesson plans, create engaging materials, and provide hands-on coding exercises to help students grasp core JavaScript concepts, from basics to advanced topics like asynchronous programming. My focus is on fostering a supportive learning environment where students develop problem-solving skills and confidence, blending theoretical instruction with practical application to prepare them for real-world challenges.

Front-End Developer– AITSL: August 2024 – Present

Web Support Officer – AITSL: Jan 2022 – August 2024

- Good Understanding of Front-end Optimization Techniques.
- Solid understanding of HTML5, CSS3, and frontend frameworks.
- Extensive experience with dynamic web application frameworks, including React and Next.js
- Strong skills in core JavaScript and TypeScript.
- Creating Quality Web Pages: This involves writing clean and maintainable code, ensuring proper accessibility, and adhering to best practices for web development.
- Collaboration and Problem-Solving: Worked closely with UI/UX designers, backend developers, and other stakeholders to develop and implement web solutions. Addressed user inquiries and issues promptly.
- Testing a Website & Identifying Bugs & Technical Problems.
- Developing Cross-Browser and Cross-Platform Compatible.
- Following international web standards and protocols such as HTML5, CSS3, and HTTP/HTTPS ensures that web applications are interoperable and secure, in alignment with global standards and protocols.

## Selected Projects from AITSL website

### Science Week

Link: <https://www.aitsl.edu.au/campaign/science-week>

The AITSL Science Week campaign page honors the significance of science in Australian schools, offering educational resources for educators.

I collaborated closely with the designer throughout this project.

The designer finalized the design in Figma, and I followed their Figma designs meticulously to ensure all elements adhered to the correct specifications.

I built both the parent web page and child pages completely from scratch, using HTML, CSS, and JavaScript for their development.

- Implemented a modern design using CSS Grid and Flexbox for layout.
- Integrated JavaScript for interactive elements and animations.
- Optimized performance and responsiveness for various screen sizes and devices.

## Voices of the Profession

Link: <https://www.aitsl.edu.au/campaign/voices-of-the-profession>

The "Voices of the Profession" campaign page by AITSL features stories from educators nationwide, highlighting their experiences, insights, and challenges in teaching. These narratives aim to inspire, inform, and celebrate the diverse voices shaping education in Australia.

The designer's finalized Figma design guided my meticulous implementation of all elements to exact specifications.

I independently developed both the parent web page and child pages from scratch, employing HTML, CSS, and JavaScript. Additionally, I integrated the Swiper.js library to create card sliders on each page.

- Implemented a modern design using CSS Grid and Flexbox for layout.
- Integrated JavaScript for interactive elements and animations.
- Optimized performance and responsiveness for various screen sizes and devices.

### 360 Reflection Tool

Link: <https://www.aitsl.edu.au/lead-develop/develop-yourself-as-a-leader/360-reflection-tool>

The 360 Reflection Tool page on the AITSL website provides a resource designed for leaders aiming to enhance their professional development.

I created the web page independently from scratch, using HTML and CSS.

- Implemented a modern design using CSS Grid and Flexbox for layout.
- Integrated JavaScript for interactive elements and animations.
- Optimized performance and responsiveness for various screen sizes and devices.

### Spotlights Pages

Links:

<https://www.aitsl.edu.au/research/spotlights/strengthening-parent-engagement-to-improve-student-outcomes>

<https://www.aitsl.edu.au/research/spotlights/evaluating-the-evidence-for-educational-technology-part-1-the-technologies>

<https://www.aitsl.edu.au/research/spotlights/evaluating-the-evidence-for-educational-technology-part-2-enabling-learning>

The "Spotlights" section of the AITSL website offers in-depth research and analysis on key education topics, providing curated insights and discussions for educators, policymakers, and researchers. This resource supports evidence-based decision-making in Australian education.

I worked closely with authors to layout the page according to their specific design preferences.

Independently, I developed the entire web page from scratch, using HTML, CSS, and JavaScript for its implementation.

- Implemented a modern design using CSS Grid and Flexbox for layout.
- Integrated JavaScript for interactive elements and animations.
- Optimized performance and responsiveness for various screen sizes and devices.

### Australian teacher workforce data

Link: <https://www.aitsl.edu.au/research/australian-teacher-workforce-data/publications-and-data-tools/national-trends-ite-pipeline-feb2024>

The "National Trends in Initial Teacher Education Pipeline - February 2024" page on the AITSL website provides detailed insights into ITE in Australia, including program analysis, enrolment statistics, and demographic trends. It is essential for policymakers, educators, and researchers seeking to understand the future of the Australian teacher workforce.

I collaborated closely with the designer and data science team to layout the page according to their specific design preferences. I integrated graphs and statistical tables into the webpage.

Independently, I developed the entire web page from scratch, using HTML, CSS, and JavaScript for its implementation.

- Implemented a modern design using CSS Grid and Flexbox for layout.
- Integrated JavaScript for interactive elements and animations.
- Optimized performance and responsiveness for various screen sizes and devices.
